

2025 Computer Quiz

1 This person created a machine called 'The Analytical Engine.' His ideas were some of the first that led to the creation of computers. What was the name of this person.

1 Simon Konrad	2 Charles Babbage
3 John Lovelace	4 William Howard

Answer

2 The invention of this product replaced vacuum tubes and made computers much smaller and faster. However, it was eventually replaced by another invention. Guess the name of this product.

1 RAM	2 ENIAC
3 Transformer	4 Transistor

Answer

3 This invention was 1,000 times faster than any machine built before it. It was so big that it could fill up a house. Name that invention.

1 Apple I	2 ENIAC
3 Windows	4 Z3

Answer

4 Which programming language is known for its use in artificial intelligence?

1 Ruby	2 LISP
3 PHP	4 SQL

Answer

5 This invention helped make computers much smaller and faster. What is it called?

1 Vacuum Tube	2 Random Access Memory
3 Central Processing Unit	4 Integrated Circuit

Answer

6 This person created what is now known as the first computer program. The program was made to help the Analytical Engine calculate numbers. Guess the name of this person.

1 Charles Babbage	2 Konrad Apple
3 Ada Lovelace	4 William Zuse

Answer

7 Name the computer who verified the calculations for the Friendship 7 orbit and re-entry.

1 Dorothy Vaughan	2 John Glenn
3 Deke Slayton	4 Katherine Johnson

Answer

8 This person is often called the inventor of the modern computer. He actually created the first fully electronic computer. Guess the name of this person.

1 Konrad Zuse	2 Steve Jobs
3 William (Bill) Gates	4 Byron Lovelace

Answer

9 What is the base of a number system called?

1 Index	2 Subscript
3 Radix	4 None of the above

Answer

10 Which protocol is used to retrieve email from a mail server?

1 FTP	2 SMTP
3 IMAP	4 DNS

Answer

11 Which part of the computer performs arithmetic and logical operations?

1 Control Unit	2 Arithmetic Logic Unit
3 I/O Unit	4 Registers

Answer

12 What is a group of independent computers interconnected through communication media called?

1 Internet	2 E-mail
3 Network	4 All of the above

Answer

13 What is the term for the smallest unit of data in a computer system?

1 Bit	2 Megabyte
3 Byte	4 Kilobyte

Answer

14 What type of communication network is used to communicate from one city to another?

1 WAN	2 MAN
3 LAN	4 All of the above

Answer

15 In which year was the first hard disk drive introduced?

1 1945	2 1956
3 1961	4 1972

Answer

16 What is the value of 1024 bytes?

1 1MB	2 1KB
3 1TB	4 1GB

Answer

17 What does 'SQL' stand for in database management?

1 Sequential Query Language	2 Simple Query Language
3 Structured Query Language	4 System Query Language

Answer

18. What does Bit stand for?

1 Binary Digit	2 Binary Data
3 Binary Deci	4 Binary Deci

Answer

19 What type of computers were early speedometers an example of?

1 Hybrid	2 Digital
3 Analog	4 None of the above

Answer

20 In the computer memory hierarchy, which is the fastest memory type?

1 RAM	2 Hard Drive
3 SSD	4 Cache

Answer

THE END
